

For Immediate Release

12 January 2026

SELEE Corporation and Drache GmbH are now one! Porvair plc has acquired Drache GmbH and uniting with SELEE Corporation in Porvair's Metal Melt Quality Division to strengthen two leading aluminum filtration technology specialists.

Our Drache and SELEE aluminum cast house customers will continue to have the brands and relationships that they are familiar with. Furthermore, customers will soon begin to benefit from a combined product range, expanded technical and commercial support, accelerating new product / service pipeline, and convenient production bases in the Americas, EMEA, and Asia. We intend to leverage American innovation, German reliability, and Chinese speed in one global team.

Watt Jackson, Managing Director of Porvair's Metal Melt Quality Division, noted that "The combination of SELEE and Drache is a natural fit with significant benefit to aluminum cast houses worldwide."
